

## tool design / process planning

2x VISI 3D CAD Workstation with Blank

TopSolid'Design Pro

VISI PEPS WIRE

Edge-CAM 3D

Type	X	Y	Z
------	---	---	---

## milling

Oerlikon MT 4 V with FIDIA CNC 11	3.000	1.400	1.200
-----------------------------------	-------	-------	-------

Mazak VTC-2003	1.120	540	510
----------------	-------	-----	-----

2x Mazak VC NEXUS 510 C	1.050	510	510
-------------------------	-------	-----	-----

## coordinate grinding

Hauser Sip S50 ADCOS CNC-800	900	450	180
------------------------------	-----	-----	-----

## flat grinding

ELB 1200	1.200	600	400
----------	-------	-----	-----

ELB Gerh.-Amb. 4/2VAII	500	375	375
------------------------	-----	-----	-----

Perfekt PFG-3060 AH	600	320	300
---------------------	-----	-----	-----

Jung HF 50	530	250	230
------------	-----	-----	-----

## circular grinding

Karstens external and internal	1.000	max.Drm. 310 mm	
--------------------------------	-------	-----------------	--

## turning:

Weiler E35/D1	950	max.Drm. 410 mm	
---------------	-----	-----------------	--

## wire cutting

AGIE CUT 3000 S with max. 30°-Konik	500	350	256
-------------------------------------	-----	-----	-----

AGIE CHALLENGE 2 e Cut	350	250	256
------------------------	-----	-----	-----

## die sinking

AGIE - Mondo 20 with 60 A Generator	300	250	250
-------------------------------------	-----	-----	-----
